

Centre for Water Innovation Namibia

About Us :

C-WIN is a Namibian non-profit driving water security through research, innovation, and community solutions. We empower people and pioneer technologies for a more resilient, water-secure future.

“Water Innovation for a Secure and Resilient Namibia”

Vision

A world where water innovation drives security and resilience.

Mission

To secure Namibia's water future through innovation, resilience, community empowerment, and collaboration to thrive in water-scarce environments.

Objectives

Drive research & innovation for safe, sustainable water and sanitation solutions.

Build skills through training, workshops, and community outreach.

Launch a Water Tech Hub to support local innovators and scalable solutions.

Foster partnerships across sectors to tackle water challenges together.
